

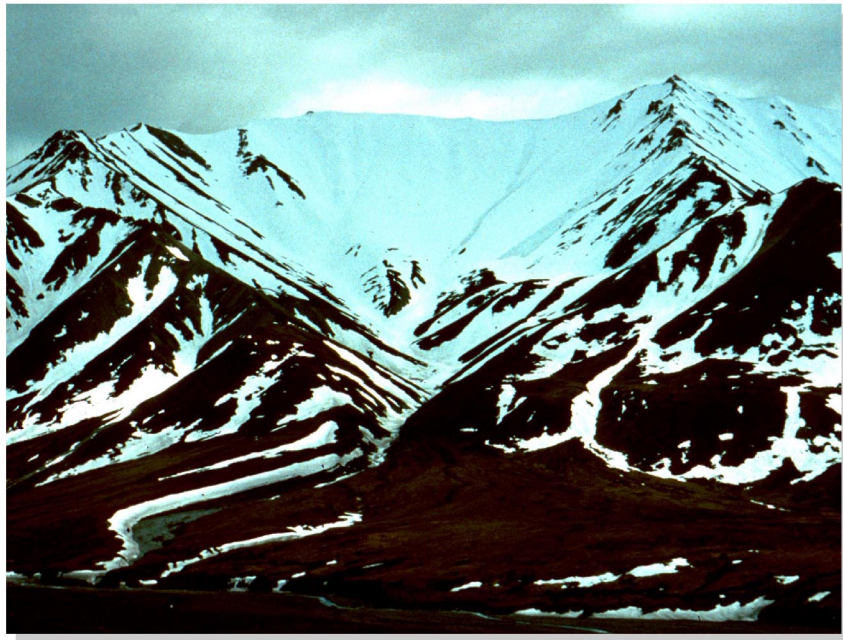

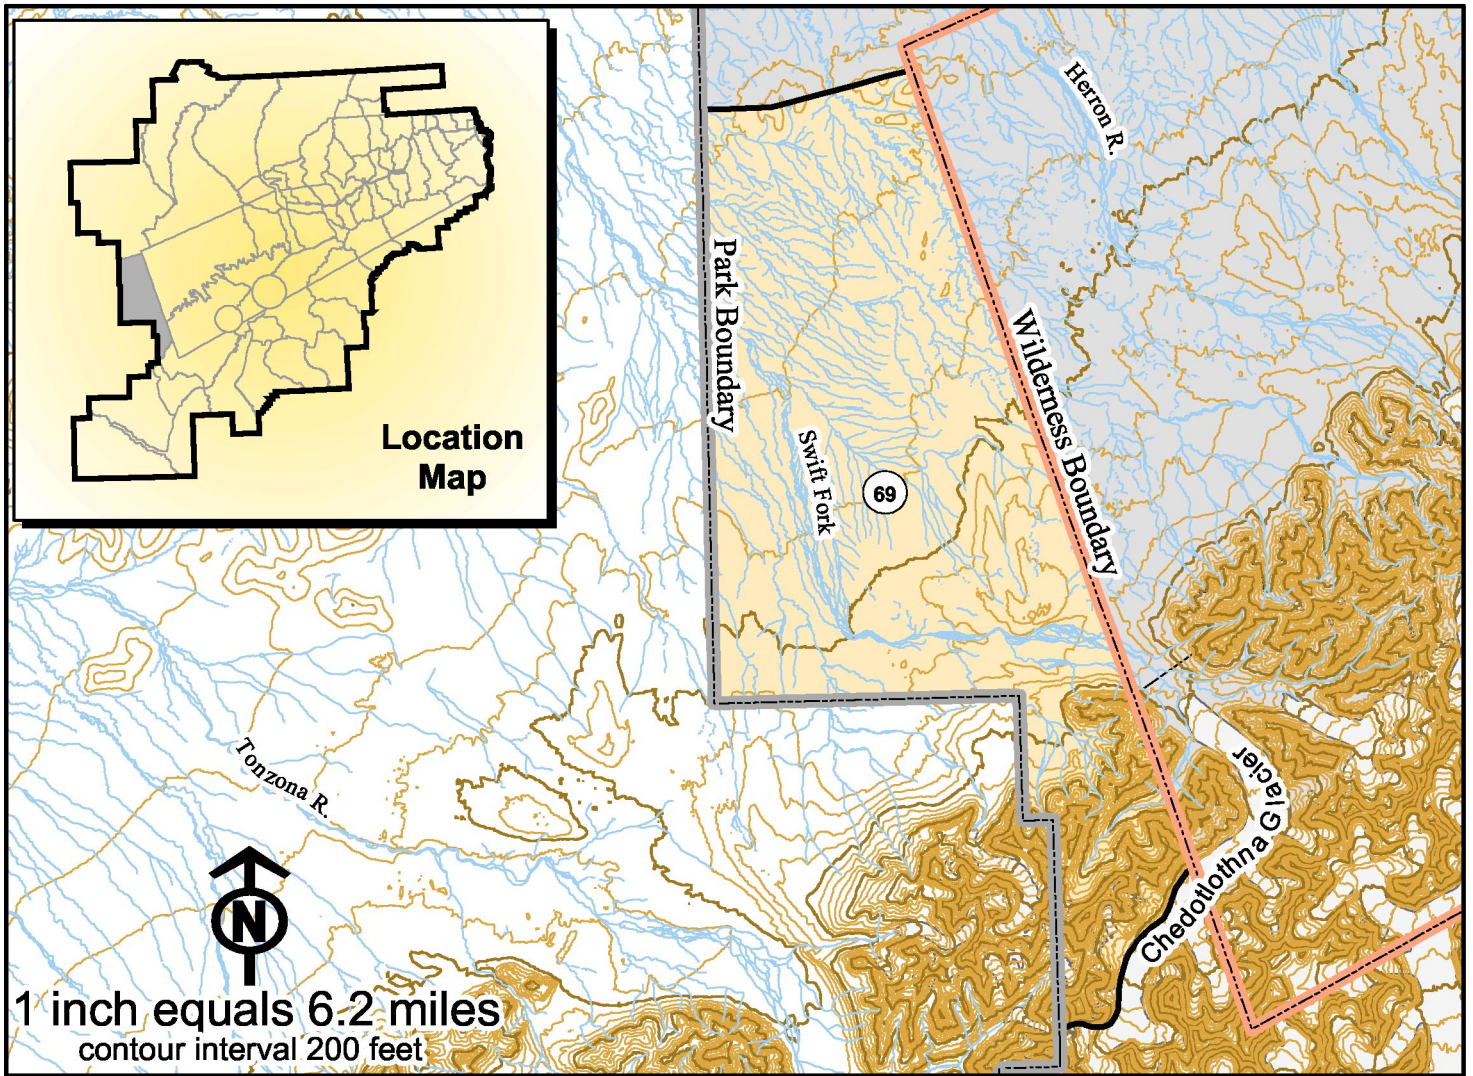

# Map 2-41 - Swift Fork (Unit 69)

Swift Fork (Unit 69)

Stunted spruce, woodland spruce, low shrub sedge, and low shrub birch and willow. Flat lowlands with numerous lakes. To the south the terrain becomes steeper and more rugged. Includes the Swift Fork. Valuable wildlife habitat. Some archeological sites and one cabin.

Receives little human use. Good opportunities for solitude and a variety of recreational activities. Occasional subsistence use. Wilderness character is excellent.
